

Life Skills and Parenting Class

“Rebuilding Your Self and Your Family”

For parents, couples, and individuals

Jump-start your spring by creating a system of family discipline that really works in this workshop-style, discussion-based class!

We will be addressing the concerns of parents with all ages and abilities of children in this class, and can also help individuals or couples without children that want to rebuild their lives.

Families will be assigned mentors that will call them nightly, and support is available by phone and in person at Hand In Hand Farm’s facility. See what we do at www.handinhandfarm.org!

Class runs April 9 to July 16. April 9 is the introduction and Week 1 of the curriculum, April 16 will be a “bonus” class but optional if you have other plans for Easter, and we are aiming to be finished with the curriculum on or before July 16. Childcare is provided. Participant donations or other help is appreciated but not required.
